Presidential Notes

Hello everyone!

As I sit here preparing to write this article, the thought comes to mind; why am I writing this? I'm not supposed to be president this year! It's someone else's turn to guide the organization, but I'm still pedaling as I can't just turn my back on it. By the way, I did receive two write-in votes; that's more than anyone else received.

Well it is a new year and I hope you have lots of new toys for the season. Speaking of the season, it is already under way. Winterfest has completed and I hear it went well. Congratulations to Jim Nikodem for taking first place in APRA; Sam San captured fast time. Congratulations to Gino Del Ponte for his win in AMA 428; Matias Salar captured fast time in 428.

NEW MEMBERS

I would like to welcome the following new members.

Vic Welland of North Carolina
Eric DeSardi Jr. of Willis, TX
John Gemmell of Alberta Canada (new VP for district 3)
Scott Hartman of Fritch, TX
Javier Fernandez of Guadalajara, Mexico
Ruben Horta of Zapopan, Mexico
Enrique Licea of Mexico City, Mexico
Alejandro Vazquez of Guadalajara, Mexico

It's good to see that interest is picking up in Mexico.

If you know any of these people, be sure to thank them for joining us. Do you know some one that races, but isn't a member? Try to convince them to join us.

AIRPLANE TRACKING SYSTEM

Many thanks to those of you that have already contributed to help fund the new tracking system; things are under way, and I hope to be able to give a progress report soon.

2008 OFFICERS

All the VP positions were unopposed so all were elected, thanks guys. We do need to find a VP for district 5; Bernie Vanderleest has been doing a great job in that position, but he is being treated for cancer and needs to take care of himself. I wish you well Bernie. For some reason I thought Dan Kane was going to step in again, but I was wrong. So, I need a volunteer to fill the district 5 VP spot.

GOLD CUP SERIES

As mentioned last time, the first Gold Cup race for 2008 will be the Phoenix Classic on February 23rd and 24th. The dates for the Ft. Lauderdale race on April 19th and 20th and the Bowie race on September 6th and 7th are now firm and we have added a race in Whittier, CA on October 4th and 5th; the Whittier race will also include AMA 424 racing. The only date left is the Championship Race in November; this race should be held in Texas this year.

RULE PROPOSAL RESULTS

Along with the election ballot, I included a poll to see what your thoughts might be on the proposals to slow down AMA 422 and/or AMA 428. The low number of you responding was disappointing to say the least, but the majority of those responding were against slowing either event. Quiet frankly, that does not come as a surprise. It is now up to the contest board members to vote in a few months; if you haven't contacted the board member for your district, it is not too late to let him know your thoughts. We represent you and want to vote for what you want, but we can't do so if we don't know what you want.

NATIONAL POINTS

The final standing for AMA 424 and AMA 422 can be found later in this newsletter. An error was found in the 424 standings; the corrected standings are as shown. The Q-40 standings are now complete and listed also. Congratulations to all and thanks for competing. Shirts will be ordered this week.

NEWS FLASH!!

I received a note from Lloyd Burnham that a group in Long Island, NY has leased an old military airbase with miles of runway. It has the potential to be a premier flying site, but the best part is that they want to host pylon races; what a deal. They are in the process of working the logistics and anticipate being able to host a race in 2009. I'll let you know as things develop.

RULES, RULES, RULES

Do follow the rules, it is the only fair way to compete!

Looking for a replacement!

Bob

Ed. note: Bob is doing very well after his knee replacement surgery. In fact, his physical therapist said last week that Bob was doing at one week after surgery what the therapist hoped he would be able to do after three to four weeks. Of course, "Mr. Impatient" wants to be at 100% NOW. - Linda

District 1, Travis Flynn

Hello and Happy New Year District One. I hope you all had a great holiday season and got some new toys for this year's season. Well, our season is off and running with the first race of the year, the Winterfest Q500 in Phoenix, Arizona. We had 10 entries in 424 and 40 in the 428 class. Not the biggest turn out we have had but a good sized contest for sure. Jim Allen, Randy Doer, and the rest of the Speedworld guys did an outstanding job getting us 10 rounds of racing.

The weather was a little cool especially in the AM hours. I looked at my car's temperature gauge both mornings and the temp was below 30. The good thing is that when the sun came out it did allow us to take off a few layers of clothes.

The racing was tough as always and close all the way to the end. Both Gino DelPonte and Fred Burgdorf were almost perfect through all 10 rounds - with the two of them having to race in the final round which would also determine the winner of the

contest. They battled it out all the way to the end, but a cut at pylon one gave the race to Gino. There was only one fly-off in 428, and it was between myself and Scott McAfee with Scott getting the win.

In 424 Jim Nikodem took the top spot, and there was a fly-off for second and third between Jim Padelt and Sam San with Jim taking the win.

A couple of highlights about the race was seeing Mike DelPonte back out there racing in the 424 class and Spencer Wallace in 428 who has been out of the racing circuit for close to 10 years. Other honorable mentions need to go to Matias Salar for getting the fast time in 428 and Norm Teague of the Castaic racing group for getting his first one of the Kachina trophies that the Phoenix race is so famous for giving out.

The results for the trophy receivers:

424

- 1st – Jim Nikodem
- 2nd – Jim Padelt
- 3rd – Sam San F/T 1:35:92

428

- 1st – Gino DelPonte
- 2nd – Fred Burgdorf
- 3rd – Matias Salar F/T 1:05:26
- 4th – Scott McAfee
- 5th – Travis Flynn
- 6th – Norm Teague

That's about all I have for now; the next race is the end of February with close to 80 guys already talking about making that Q40 race. Also the Whittier guys are planning to put on a few more races this year with the first one being March 15th & 16th.

Until next time keep on practicing and see you at the races.

Travis

District News

District 3, John Gemmell

Hello all. We are officially in the cold and blustery days of a Canadian winter here, and there's not much to do but stay warm and cozy in the workshop. This is the time of year when a guy can sit back and think about how to improve upon last year's performance. One of the most obvious areas is to think about those times when you went to the line, tried to start your motor, cursed the Pylon Gods several times when it wouldn't start, and then sat and watched everyone else race. As the score keeper posted a zero beside your name, you humped your sorry butt back to the pit area to figure out what went wrong. Sound familiar???

This issue's Nifty Racing Tip comes from Roy Andrassy. Roy is one of the fastest guys in our district, and there's a reason why. He tries to eliminate many of those reasons that cause a zero. One area that needs attention is the care and feeding of your fuel tank. A few of us in the district have found several brand new Jett CG tanks that have air leaks coming from either the fuel feed area or from the pressure line. This can cause inconsistent fuel flow to the motor. Often this results in an inconsistent needle setting, and sometimes it can cause the motor to go lean during the flight.

Roy has found a way to proactively prevent air leaks in these tanks and thus eliminate just one more reason for posting a zero. Roy explains his method of sealing potential air leaks in this type of fuel tank.

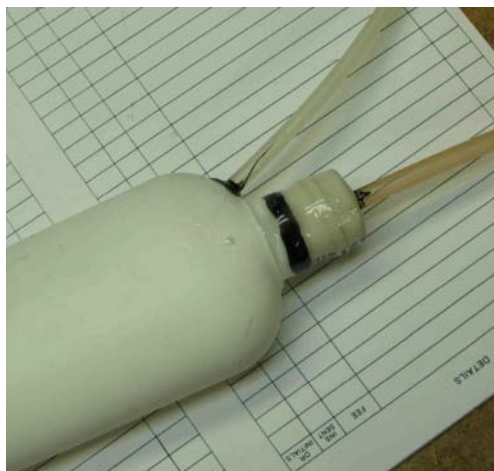

First apply Flash Black CA glue around the existing heat shrink plastic seal and also around both the outlet points for the pressure and fuel feed lines. After the Flash Black CA sets, paint some 12 minute epoxy around the seal areas once again. The key to the next step is to use a piece of 1" I.D. heat shrink tubing that has adhesive glue on its inner wall. This type of heat shrink can be purchased from most stores' electronics supply

stores. Slide a piece of the heat shrink tubing over the neck of the fuel tank and shrink it down really well with a hot air gun. Now add a little silicone to the pick up tube area. After everything sets, pressure test the tanks under water to confirm there are no leaks present.

See accompanying photos for further clarification. Check out your tank installation today and save yourself some future frustrations.

See you in Phoenix for the Q40 Classic,

Randy Smith

District 5

– need a volunteer to be VP

District 6, Steve Baker

It's winter and there's not a whole lot to do or discuss about anything r/c and especially r/c pylon racing. However, it should be noted that the PGRC has planned its racing schedule for 2008. Once approved by the club's Board of Directors I will publish it. For now I can say that we will host 424 races in April and June, an NMPRA Q-40 Pylon race the 6th and 7th of September, and a 424 and 428 District VI Championship race, either the 4th or the 11th of October. I hope to get out to more races this year and hope

we can have more people who have been unable in recent years to come to more of our events as well.

In the meantime, on a more personal note, I wanted to pass along to everyone that my son Jon has graduated from Virginia Tech as an Aerospace Engineer and is already working at his new job in Bangalore, India. He's only been gone for 2 weeks and is very busy adapting to a world far different from anything most of us could imagine.

In order to stay in touch with his family and friends back home, he is keeping a photo journal of sorts at the following website:

<http://s95.photobucket.com/albums/l121/GI8U2racing/Not%20so%20Incredible%20India/?albumview=grid>

Feel free to take a look; but more importantly, I encourage you to send him an e-mail to let him know you're thinking about him at: baker@vt.edu. He will return to the states from time to time, but I am not certain at this point if any of those trips will coincide with any pylon racing contests.
