President's Corner

by Trey Witte

It is a new year!!! The racing season has begun with Winterfest in AZ and a new race venue in Taveres. FL. While some areas in the nation are still freezing, the South racing season is well under way. The Q40 Classic is upcoming and looking to be great contest. Wrap up those projects and scope out the calendar below and get to a race!!! We have seen a few new venues for racing in Florida come up this year. Thanks to Scotty Smithwick for finding them and negotiating with the clubs to hold races.

Racing Calendar

As we begin this year, Contest Directors are getting their plans together for their races. I urge all CD's to consult with Mike Helsel to make sure that we do not have conflicts in the schedule. Some things are going to happen. That's inevitable. But Mike will do his best to keep those issues to a minimum.

2017 National season points & awards

The numbers have been crunched!!! Congratulations to the following guys for placing 1st in their respective classes. The final standings are below in the points section. The awards will be made and sent out in March.

AMA 424 – Llyod Burnham NMPRA EF1 – Tony Lopez AMA 426 – Richard Beers AMA 422 – Robert Holik

2018 Team USA F5D

Show your support for the 2018 Team by making a donation from the button on the NMPRA main website. Your support is appreciated. A raffle is being brought together and will be posted shortly.

Hall of Fame Nominations

The open nomination period for 2018 has begun. The NMPRA will accept nominations for 5 more months. The forms are on the main website. If you need any help with this, please contact me at anytime.

2018 AMA Nationals

Plans are well underway for a great contest in Muncie, IN. The AMA will be sending out the entry form soon. Mike Condon has been posting information on the Forum. I will be starting a list for the tent soon. BOOK YOUR HOTEL NOW!!!!! Do not wait. Muncie is a bustling city in July. Hotels are filling up fast. If all fails, I know a great patch of grass you can pop a tent up on!

2018 NMPRA Q40 Championship race

Hank has been posting updates for the Champ Race on the Forum. It is shaping up to be a great race. Keep a lookout for any new information.

Judgeman system update

Here is a quick note from Hank on the first testing of the "Workerless" Judgeman system. If all continues to go well, a live race test may happen at the Q40 Classic.

"I'm just back from a 3 week stint in Phoenix testing MT at the Speedworld site. I wish I could have done this years ago. I'll be going back again in 3 weeks for another extended period to continue the process. I'm not going to stop now. We accomplished a lot during testing; however it's not quite ready for beta testing yet; there are a handful of things that need to be resolved, a couple of which would be frustrating to you.

Accomplished ...

The system supports three-pole and two-pole racing. Our testing setup was for two-pole racing. It's simpler to set up and supports testing without impacting the ability for the sport flyers to enjoy their field. Set up for 2P racing is without P1, so 5 stations not 6.

Two-pole racing has the pilots standing off-course facing two pylons approximately equidistance to their left and to their right. The distance between the pylons can be 500, 700 or 1200 ft. depending on the class of airplane being raced. Cuts and turns at the two pylons are calculated in the same manner as 3P Pylon1. We were successful in creating XY position on the fly at a rate of about 20-30 positions/second. Good enough for now and we'll dig deeper into improving that later after nailing down other things.

After calculating positions, the next step in the pipeline is where is the plane on the race course and what is it doing in terms of turns, cuts, and laps. The logic for this is a simple state-machine which determines actions allowed to be recognized given the last action it did and the current position of the plane in the sky. The system demonstrated lapcounting with visually reasonable temporal accuracy. detection of turns and cuts, and startline violations such as early crossing during flying starts. Our testing involved multiple planes at the same time. As we are preparing for a full race event the development included...

assignment of lanes to the tag.
start clock with start lights, along with time scoring, including offset start times such F3D.
race conclusion detection and scoring.
display of all of the above.
Things to do –
Fix an issue where the

plane tags doesn't link up to the system.

- Add dual antenna logic.

- Fix, test, race

conclusion logic.

- Close 2P race testing,

and move to 3P.

- Test, Test, Test ... Fix, Fix, Fix.

Final Thoughts

I am looking forward to what 2018 has to offer. I am planning

on making 8-10 races this year. Going to Japan is going to be an adventure. I have a ton of building to do!!! Thank you to all the CD's out there who take the time to plan and put on a race for us. It is a huge burden. Without you we would all just be posting on the Forums. Everyone, please make it a point to thank the guys who take the time to help us do what we love to do.

Until next time.... Pull Harder!!

Trey

District 2: Matt Russell

Fellow Racers, it's a new year in the Northwest just as it is in your part of the world! I'd like to thank Trey Witte for lighting a fire under my butt to get this off to you! Racing in this part of the country has been waning for the past few years, and perhaps we can turn some of that around this year. We are planning a new race in Twin Falls, Idaho on

August 4th and 5th. The plan is to race EF-1 and two classes of Q-500 utilizing Canadian engine exception for 426 allowing the use of the Nelson Short Stroke and muffler without the inner pipe. Although not in District 2, there is a race scheduled for Billings, Montana on June 2nd and 3rd. The race in Spokane is being rescheduled as I write this for October 13th and 14th as the earlier planned date over Labor Day would have been too close to this year's NMPRA Champ Race in Denver. All of the races I have mentioned should be a three-class format as mentioned above. If you have time in your schedule, come race with us!

The Reno Air Races will be held during September on the 12th -16th. My wife and I have attended almost every year since 2000. We sit at the top of the bleachers on the Start-Finish line with a group that started coming 50 years ago! Tickets for the 5 days are \$160. If you have any interest in attending, I would be happy to help you. Visit <u>http://airrace.org/</u>. Contact me at <u>matt@warussells.com</u>. We will next be racing at the Q-40 Classic Race in Phoenix. Hope to see you there!

--Matt Russell

District 3: Randy Smith

Hi Guys and Gals,

I'll tell you right now there will not be much to report here until June! We are full of snow, and pylon racing of any sort is shut down. The boys are in the workshop assembling the fleet for next season.

Some of the Snowbirds such as Roy Andrassy, Doug Houston, Harold Sattler, Henry Redekop, and Hank Kauffmann continue the cause down in Phoenix as much as they can. Roy is nearly a daily occurrence at the Speedworld field in Phoenix.

Recently, Canada and District 3 were represented at the Phoenix Winterfest by Roy, Doug, Harold, Hank, and our two new pylon rookies, Dave Eaton and Chris Metlewsky from North Battleford, Saskatchewan. Great job, Dave and Chris! This was Dave's second pylon contest and the first ever for Chris. You guys are really jumping into the pond with the big fish. I did hear tell of a certain transmitter mix-up on the start line.... We've all been there and done [something like] that. Welcome to pylon! Roy, Doug, and Hank placed in the top DISTRICT NEWS

.eft to Right: Harold Sattler, Dave Eaton and Chris Metlewsky attend the Phoenix Winterfest in 426 Quickie representing District 3

eleven at the Winterfest in 426 so it sounds as if some good races were had.

Stay warm and pick up the right transmitter...

Randy

District 4: Travis Elbert

Hello fellow NMPRA Members,

Ice and snow are still the norm here in Montana so building season is in full swing. I believe that Spokane is changing their race date in the fall?

Olen Foreman from Magic Valley Aeromodelers is putting the Twin Falls race on August 4th and 5th. He can be reached at 208-410-1252 or at <u>OL4man@q.com</u>. The Billings MT race will be held June 2nd and 3rd. Ef1, 424 and 426 will be run. Shane Elbert is the contact person for this race.

The exciting news here has been the arrival of an industrial grade laser cutter. Leon and Shane Elbert purchased this fine piece of hardware to manufacture EF1 short kits. Little Toni's and Tomcats will be available soon as they have already started cutting them out. Kits will include foam cores, plastic parts, and laser cut fuselage tail feathers. Shane can be reached at 406-459-4855 or at Snaners@hotmail.com.

Travis A Elbert District 4 VP

District 5: Jim Nikodem

I had the good fortune to attend Winterfest in the Phoenix area once again this January. This is the twenty-fifth time Jim Allen has put it on, and we owe him a lot for all his efforts over these many years. It is an extremely well-run contest under ideal conditions. A great field, great workers, and great weather. If you can make it, this is an outstanding way to start to the season.

One highlight for me was the usual large Canadian contingent, but this year with two young newbies teamed together. Both flew 426 and did not look as if they were at their second /first race.

The practice line at the Phoenix Winterfest with the racecourse in the background

Tom Melsheimer and his wife were in the area and ended up working the contest Saturday and Sunday. This is just one more way Tom has served the racing community. Once again Tom will host the Pylon Racing School in Muncie May 4-5. Please spread the word about this annual event! Always willing to help, Tom has done a lot to allow things to go smoothly at local races, and next year he will be assistant CD at the NATS. Thank you Tom!

I would like to congratulate some of district 5's finest in their national points from last year. Many others are on their way up, improving and learning how to best the veterans. In EF1 Jim Nikodem came in first (third at the NATS), Tim Sparks came in third, Tim Lampe fourth, Daniel Troup sixth (second place at the NATS), Dan Kane sixth, and Clint Seyer eighth. That is a real good showing for our district! In 424, Jim Nikodem came in second; Rick Vogelsang was third. Tom Melsheimer was seventh, and Daniel Troup was tenth! In 426, Jim Nikodem was seventh, Pat Galernault was ninth, and Scott Farnsworth 12th. In 422, our own Duane Helen was fifth in the nation, and new to the event Tim Lampe was 13th. Congratulations to all!

Jim Nikodem

Pylon Racing School (PRS) Formerly Pylon Spring Thaw

May 4th (Friday) and 5th (Saturday), 2018 AMA site 3-Muncie Indiana

Time to get you and your airplane race ready. Veteran pilots available to help. Fly the course with timing and feedback. Finish up the event with practice races against others in your event.

Pilots new to R/C Pylon Racing are welcome. Bring your racer or sport aircraft and fly the AMA 3 pylon course. We will have several experienced racers on hand to help you.

Warbird racers, Club 40, EF1, 424, 426, Q40 (422) pilots, this is a great time to test, tune and practice before the season starts.

This is a free event.

For more details and specifics, please contact: Contest Director - Tom Melsheimer tommelsh@gmail.com (440) 488-4743 (voice and text)

Notes: You must have AMA membership CAPS & NMPRA membership applications will be available

Helmet required, a few loaners will be available

District 6: Peter Tani

Hello all,

Happy New Year and greetings from district 6. More good timing. It just so happens that today I write with knowledge of the 2018 annual business meeting for our group here in the Northeast. Thank you past president Bob Triggs for your hospitality and for hosting our meeting today complete with a tour of what I can only describe as a not-for-profit Q500 factory within your home.

Thank you Buddy Beaudoin for being our 2017 and former local president. All in attendance welcomed and then commended Joe Tropea who worked in advance and for some time in his new capacity, only today introduced formally as our incoming and now 2018 local president. Great thanks Joe, our once past and now our present president. Many thanks to our newsletter editor Linda Brogdon for allowing a few extra days to elapse so that I might incorporate the results and outcomes of our annual meeting.

Thank you to Trey Witte our NMPRA president for my AMA 424 9th place finish embroidered tee-shirt. I understand from our new local president Joe Tropea that I eked him out by one place with photo evidence sent to me by cell phone. My thoughts on the delivery timing is that it is like giving a wedding gift, one should do it as soon as possible; however, one also has a complete solar year to deliver. Keeps your interest. Thank you again for your efforts and the efforts of all those who were tasked to figure it all out across our entire nation. Many thank you's to both Ola Nordell and his "tween"-ager son Leo Nordell. Some may remember the pair from the most recent SEMPRA Florida Champ Race as they were both in attendance. We can now add a set of two new sequential NMPRA numbers "31J" and "32J" to our roles, bravo. Thank you both for joining. Just in case anyone was wondering, their combined winnings at our local monthly club meeting raffles is also statistically significant given the low number of tickets purchased locally as well. Wow, don't know how you both do it in terms of luck and raffles. After winning at a local club monthly meeting, I observed Leo pick the next ticket (as he was asked to) and picked his own ticket. Leo declined to select another prize and those in attendance convinced him otherwise. Leo in the end won a gift certificate to a rare and still solvent brick and mortar hobby shop now located in the next state to our north. Father Ola was a sportsman pilot long ago, then graduated to our standard ranks, and now enjoys expert status and long-time assistant "CD-ship" at one of our three racing venues. Bravo and thank you for your many years of passion and effort.

President Joe Tropea welcomed all in attendance. First order of business was to poll all contest directors or their representatives to confirm their respective race dates for the 2018 district 6 racing season. These dates were made with best attempts to avoid other local events (obviously racing, but largely otherwise) and national contests during a time also acceptable to our hosting clubs. Many thanks to our CD's, hosting clubs, and all their workers in advance. In 2018 we will have eleven scheduled events over the course of six days at three local clubs namely: Northern Connecticut Radio Control Club (NCRCC) in Ellington, the Salem Prop Busters, and the Wintonbury Flying Club. Our event schedule remains available at the NEPRO website at all times. Continued thanks to Kevin Cyr for your tireless work in keeping us current on the web. Our 2018 district 6 schedule follows:

Date	Location	Event
Sunday, May 6, 2018	NCRCC	424 and 426
Sunday, June 3, 2018	Salem	424 and 426
Saturday, August 4, 2018	NCRCC	424 and 426 Start
Sunday, August 5, 2018	NCRCC	424 and 426 Finish
Sunday, Sept., 9, 2018	Wintonbury	424 and EF-1
Sunday, Sept., 23, 2018	Salem	424 and 426

Joe spoke in detail of our "new" big event. For the past twenty years, which is as many years as I can describe first hand, we have raced at Ellington's NCRCC field on the first weekend in August namely this August 4th and 5th. However, this year we will conduct the first ever "<u>Pete Reed Q500 Bare-Foot Show-Down</u>" where we hope to draw from a greater audience and with even greater national participation.

Joe noted that many of the niceties and festivities that are uniquely enjoyed at our signature two-day event would remain intact including the free banquet Saturday night cookout. Joe continued and described one additional highlight and expressed his hope that for this and in future years that we would enjoy greater national participation and recognition similar to an emerging champ race and possibly one day may become a main stay on our national circuit. We currently would still retain AMA 424 to sustain and maintain local interest, to wishfully draw local newcomers, and to of course preserve our district 6 AMA 424 series.

Joe was a strong proponent of a workers' raffle, noting that both through him and with others within district 6 and elsewhere he anticipated some "general-nature RC" aviation goodies would become available. Joe recognized the importance of showing our appreciation for workers, items which might include purpose-built event tee-shirts and hats.

Other items were also discussed. These included monetary race-day awards which, if my math and understanding is correct, would amount to \$1000 over two days.

A general concern was expressed in maintaining a safety inspection for our two-day race. The lead was taken by a long-time turbine jet pilot, racer and non-racing contest director who agreed to take on this task including a general rules check for basic geometric conformity as well.

A fellow NMPRA racer and volunteer was found to maintain a "ready box" for occupation by the next race heat participants despite the possible distraction and added burden that this activity may hold.

A seasoned non-racing starter and assistant starter have been secured.

A former non-participating NATS overall champion will likely be available as "radio operator" at pylon one for both race days. This individual might also make himself available as required for a \$25 engine tear-down in the event that one is sponsored or in the unlikely event that this type of activity is required given the greater monetary gain associated with our 2018 season.

Discussion of the availability of 2018 race approved engines was had, including a call for new racers. A pledge by the existing membership regarding engine availability was made. It would ensure and match an engine to the appropriate skill level of any entering pilot.

Senior statesman Lloyd Burnham wisely spoke of the importance of policing ourselves and following the spirit of national races in general, never approaching workers and always avoiding poor behavior and in general promoting race day fun. An overall recommendation to at all times "mind our P's and Q's" while a guest at any hosting club was made and accepted unanimously.

The topic of dwindling numbers in racing and in our hobby was discussed. Joe read a passage from what tuned out to be a 1992 NMPRA newsletter issue that was as current when written as it is now, noting that this has always been the state of affairs. Joe is not dissuaded and vowed to do his best to correct this current circumstance.

A Quik V6 would be awarded to the combined two-day point's leader in AMA424. Entry fees and the distribution between our local governing racing body and the local clubs were discussed in light of our new awards come the two-day race.

No doubt I am forgetting something. Hope all is well and that I will see you all soon.

Peter Tani NMPRA 23J

District 7: Scotty Smithwick He no

It's racing time in Florida!!!! SEMPRA started its racing season with the longest standing Pylon race ~~ The Tangerine!

December attendance, however, was down a little this year with pilots looking for venue improvements! Senior has been listening to them and announced moving the pits out of the sand pit to adjacent the runway and the planting of grass to eliminate the sand pit surrounding the runway! Yours Truly and others lost to the trees, so I for one would like to see those things moved back as much as RCACF funding can allow!!! The weather was great all weekend and the racing fierce. Looking forward to next year and the "Changes"!!!!! SEMPRA's first new venue and Scotty's 2nd race, with Co-CD help from Mr. Greg Cardillo, was the Tavares Invitational! Scotty was hoping for a good turnout! The turnout was fantastic! Then he was hoping the pilots would like the LARKS RC venue; well, THEY LOVED IT !!! In fact, they are still talking about it! Tim Lampe, Rocket, Randy, Greg, and Scotty have been actively working on the forum to establish the proper flexible course layout for next year! Had the weather been warmer,

Grand Slam, Bases Loaded Home Run with the ball clearing not only the left field wall but the bleachers as well, easily into the parking lot! With cold, low humidity air, the competition was excellent! 426 had a 3-way fly-off for first with Randy Bridge, Craig Korsen, and Tom Scott! Now you are not going to believe this, but 4 laps in Randy is in the lead, and Craig catches bad air and in he goes. So we all said, Bummer. Randy 1, Tom two, and Craig three. OK, cool, but then Tom buries his plane two laps later! LOL & OMG! Randy took 1st and fast time, with Tom and Craig, 2nd & 3rd respectively! 422 Sunday was slightly warmer due to sunshine, but still cold! Again more great competition finding Matt Fehling & Dub tied for 1st, Tim Yousey with 3rd and Randy once again at fast time! Matt was tenacious that day, beating Dub and claiming first place! Great job Matt!!! Randy's fast time was 1:00:93. SEMPRA's final race for 2018 will be another new venue in DeLand, Florida, April 28 & 29! This will be just like the Champ Race with 422 only over a twoday period! The city of Deland has everything, food, fast & real, lodging, etc. In addition to the community accommodations, the flying site boasts a 2000' paved runway, huge dry camping/parking areas, all flat, a great Snack Shack manned by a club that

the event would have been a

loves to cook, with only a bunch of trees WAY OVER THERE!!! :-)

The field is on the abandoned north end of DeLand Municipal Airport, hence the 2000' runway :-) We will have an AGL Ceiling restriction, and we can't fly into the active airport area! Since the fence to the airport is about 2300 feet away, I think we will be just fine!!!!

OK, Enuf about races, let's turn our attentions to SEMPRA folks!

A while back at the OJA FAI Time Trials, there was this cute little gal hanging out with Freeman Jr. Clearly a lady with questionable people-judging skills! Maureen and I volunteered to man the fuel table. So while Gary was down on the runway racing, she was up with us watching! So after a while Maureen and I both started talking, nudging, and shoving to get her to think about being down on the flight line with her guy!!!!! How romantic is that?? Works for us :-)

So to Gary's good fortune, here is Tasha, fully qualified, actively on the flight line, being a part of pylon and more a part of Gary!!! Tasha is one focused lady!!! had the pleasure of working the lap counter station, in charge of lane 3, Randy's lane! I had no idea what heat it was, but I saw him and Rocket walking (not

Another excellent example of "Focused" is Mr. Randy Bridge! During the Tavares Invitational I sure what Rocket does can be called walking?) out so knew they up soon! Now, during a race we catch glimpses of heats, inbetween fixing and preparing planes, right! However as a worker you have to watch the entire heat,

so watch I did :-) :-) After launch and half-way to one at about 25/30 feet, Randy's plane levels and JUST stays there for the next 9.5 laps ~~ WOW!! Well, clearly there are slight variations but minimal!!! At the start the competitors are close but then with their slight bobbles, altitude changes, and recoveries, Randy's lead extends, with the inevitable outcome! This kid, without question, can drive!!!!!! We all know getting to the top is one thing; staying there, however, quite another!!! I think at DeLand, Mr. Bridge needs to keep his eye on Mr. Fehling!

Finally, Thanks to EVERYONE, SEMPRA financials are greatly improved! Tavares saw additional memberships and unsolicited contributions from Mr. Helsel & Mr. Brown!!! With additional income anticipated at DeLand, I will post a much brighter financial report in early May!!

XXOO Scotty & Maureen

NMPRA : 2018 RACE SCHEDULE

National Contest Coordinator: Mike Helsel

If I don't have your races listed, please send me a copy of your schedule, events to be flown, and contact information, and I will get them added to the master schedule. Please contact Mike Helsel (mhelsel65@gmail.com) for any corrections, changes, additional entries, or schedule conflicts. Thanks
